MAKE YOUR OWN RECYCLED

ANIMAL MOSAIC AT HOME

You can make your own mosaic just like the ones in our exhibition that have been created by Year 5 students at Tilery Primary School! Just follow the instructions below and be as creative as you'd like.

We'd love to see your finished mosaic! #TeesValleyMuseums

THINGS YOU'LL NEED:

- Plain white paper
- Pencil
- Scissors
- Coloured plastic packaging
- Glue
- Coloured Card

HOW TO MAKE IT:

BEFORE YOU BEGIN:
Make sure you've wiped all plastic packaging, and it's clean and dry.

1. Draw your chosen animal design onto a piece of plain paper.

2. Cut your pieces of recycled plastic packaging into small mosaic style pieces.

3. Glue the pieces to your drawing, making sure you cover any white paper.

4. Once the glue has dried, carefully cut round your mosaic animal, and stick it to a piece of coloured card.
